EDUCATION

The University of British Columbia

Bachelor of Science in Computer Science and Math

Vancouver, BC

Expected Graduation: May 2027

Santa Rosa Junior College

Computer Science: **3.92 GPA**

Santa Rosa, CA

Aug. 2023 – May 2025

Relevant Coursework: DSA, Computer Architecture, OOP, Algorithm Design, Linear Algebra

PROJECTS

Vektor AI | [Link](#) | *React Native, TypeScript, Expo, Supabase*

March 2026 – Present

- Built and launched an identity-driven **AI habit coaching** mobile app, live on the **App Store**, using **React Native** and **Expo**.
- Implemented personalized onboarding flows and **multi-auth** with **Supabase** backend integration.
- Designed a **push notification infrastructure** with configurable time windows for scheduled message delivery.

FolioPrep | [Link](#) | *React, AI, Web App*

May 2026 – Present

- Developed a college-prep dashboard where students track activities, awards, volunteer hours, test scores, and essays from freshman year onward.
- Mapped every field to **Common App**, **UC**, and **Coalition** application formats for seamless data portability.
- Integrated **AI profile analysis** that flags strengths, gaps, and actionable next steps for applicants.

TaPRO | [Code](#) | [Demo](#) | *Gemini API, Next.js, Node.js, Supabase*

February 2026

- Built an **AI-powered** virtual teaching assistant platform to support university office hours for students and professors.
- Developed collaboratively during the **HackTheCoast** hackathon as part of a team.
- Designed **data pipelines** to store assignments, course materials, and interaction summaries in **Supabase** for fast retrieval and reuse.

Job Market Intelligence Tracker | [Code](#) | *NLP, FastAPI, Python, TypeScript, PostgreSQL, AWS*

August 2025

- Built a full-stack **AI-powered** job analytics platform using **Python**, **React**, and **PostgreSQL**.
- Engineered a custom NLP pipeline through **HuggingFace Transformers** using **skillner** model and intelligent text-chunking, achieving automated skill classification.
- Deployed scalable cloud infrastructure achieving **99.9%** uptime with automated **CI/CD** pipeline using Render, Vercel, and **AWS RDS** integration.

NHL Outcome Predictor | [Code](#) | *Python, Scikit-learn, Pandas*

June 2025 – July 2025

- Designed a robust **data pipeline** to scrape and cache NHL stats, significantly reducing redundant network calls.
- Engineered scalable **ML pipeline** through automated feature engineering, training and tuning **XGBoost/Random Forest** models, achieving end-to-end machine learning workflow.

LEADERSHIP

Assistant coach/Volunteer

Summer 2022, 2023, 2024

SVHS Lacrosse camp

San Francisco, CA

- Mentored athletes ages 8–14, teaching fundamental lacrosse skills while instilling **teamwork**, **discipline**, and **sportsmanship**.
- Led drills and practice sessions, modeling strong **leadership** and **communication** on and off the field.
- Inspired confidence in young players, fostering growth, resilience, and a positive team culture.

TECHNICAL SKILLS

Languages: C++, Java, Python, JavaScript, TypeScript, SQL (Postgres), Assembly Language.

Frameworks/Libraries: React, React Native, Expo, Next.js, Node.js, FastAPI, TailwindCSS.

ML/Data: TensorFlow, HuggingFace, Scikit-learn, pandas, NumPy, Matplotlib.

Developer Tools: Git, GitHub, VS Code, Agile Development.

Cloud Platforms: Amazon Web Services (AWS), Supabase, Render, Vercel.
